**Year of Issue:** 2026

**Mintage:** 400

**Country of Issue:** Germany

### The Coin

First coin in a new series exclusive to the Royal Canadian Mint! This outstanding silver coin pays homage to the breathtaking rose window seen in the Notre Dame de Paris, one of the most famous architectural masterpieces in the world.

Notre Dame de Paris

The Gothic cathedral located on the Île de la Cité in Paris, renowned for its impressive architecture, soaring towers, sculpted façades and elaborate stained-glass windows.

The south rose window, completed in the 13th century, is one of its most stunning features — a massive circular stained-glass window that depicts scenes from the New Testament and floods the interior with vibrant colored light.

The first in a new series exclusive to the Royal Canadian Mint! To be followed by Westminster Abbey, United Kingdom, Sagrada Familia, Barcelona and Santa Maria Maggiore, Rome
