Year of Issue: 2026

Mintage: 750

Country of Issue: Cook Islands

The Coin

The third coin in the Architectures of the World series brings some of the world's most celebrated landmarks to your fingertips. This 2 oz. fine silver coin invites you to explore the breathtaking Cinque Terre on Italy's Ligurian coast. The coin's reverse showcases an iconic view of the region—the colourful village of Manarola, one of the five lands in Liguria perched dramatically on rugged cliffs, overlooking the deep blue waters of the Mediterranean.

Each detail stands out in high relief, creating a striking contrast against the engraved rocky shoreline and shimmering blue sea. Written against a background of stars and crosslines taken from the Flag of Liguria is the Italian name “Cinque Terre,” honoring this UNESCO World Heritage Site and its timeless charm. The obverse features the village of Vernazza and its harbour.
